

INSTRUCTIONS FOR:  
**RECHARGEABLE INSPECTION PENLIGHT**  
**5SMD LED + 3W CREE LED LITHIUM-ION**

MODEL No: **LED035.V2**

Thank you for purchasing a Sealey Product. Manufactured to a high standard this product will, if used according to these instructions and properly maintained, give you years of trouble free performance.

**IMPORTANT: PLEASE READ THESE INSTRUCTIONS CAREFULLY. NOTE THE SAFE OPERATIONAL REQUIREMENTS, WARNINGS AND CAUTIONS. USE THIS PRODUCT CORRECTLY AND WITH CARE FOR THE PURPOSE FOR WHICH IT IS INTENDED. FAILURE TO DO SO MAY CAUSE DAMAGE AND/OR PERSONAL INJURY AND WILL INVALIDATE THE WARRANTY. PLEASE KEEP INSTRUCTIONS SAFE FOR FUTURE USE.**

Refer to the instruction manual

## 1. SAFETY

### 1.1. GENERAL SAFETY.

- ✓ Ensure the penlight is correctly charged before initial use.
- x **DO NOT** turn either light on when it is being re-charged.
- x **DO NOT** shine directly into your, other person's or animal's eyes.
- x **DO NOT** allow children to use the penlight.
- x **DO NOT** use the penlight if you suspect that the battery or the penlight casing is damaged.
- x **DO NOT** immerse the penlight in water.
- ✓ When not in use store the penlight in a safe, dry, childproof location.

### 1.2. ELECTRICAL SAFETY.

**USE ONLY THE SUPPLIED MAINS CHARGER PLUG FOR CONNECTING TO THE MAINS POWER SUPPLY.**

- **WARNING!** It is the user's responsibility to read, understand and comply with the following electrical instructions: You must ensure the risk of electric shock is minimised by the installation of appropriate safety devices. An RCCB (Residual Current Circuit Breaker) should be incorporated in the main distribution board. We also recommend that an RCD (Residual Current Device) is used with all electrical products, particularly portable equipment which is plugged into an electrical supply not protected by an RCCB.

**You must** also read and understand the following instructions concerning electrical safety.

- 1.2.1. **The Electricity At Work Act 1989** requires all portable electrical appliances, if used on business premises, to be tested by a qualified electrician, using a Portable Appliance Tester (PAT), at least once a year.
- 1.2.2. **The Health & Safety at Work Act 1974** makes owners of electrical appliances responsible for the safe condition of the appliance and the safety of the appliance operator. If in any doubt about electrical safety, contact a qualified electrician.
- 1.2.3. **You must ensure that you:**
  - ✓ Inspect the charger plug, cable and connector for wear and damage to ensure items are safe before connecting to the mains power supply. If worn or damaged **DO NOT** use.
  - ✓ Check cables are always protected against short circuit and overload.
  - ✓ **Important:** Check that the voltage marked on the charger plug is the same as the power supply to be used.
  - x **DO NOT** pull the charger plug from the mains socket by the lead.
  - x **DO NOT** use any other type of charger with this product other than desktop computer or laptop (5VDC) USB sockets.
  - x **DO NOT** place the connector into any area of the spotlight except the correct jack inlet socket.
  - x **DO NOT** try to take the charger plug apart.
  - x **DO NOT** use the charger plug to charge or power any other electrical item.
  - x **DO NOT** get the charger wet, or use in wet, damp conditions (for indoor use only).

## 2. INTRODUCTION

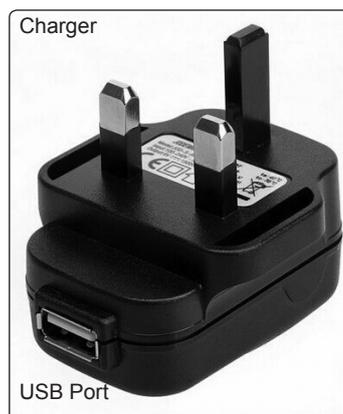

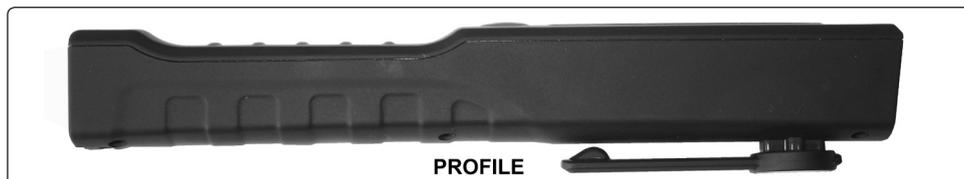

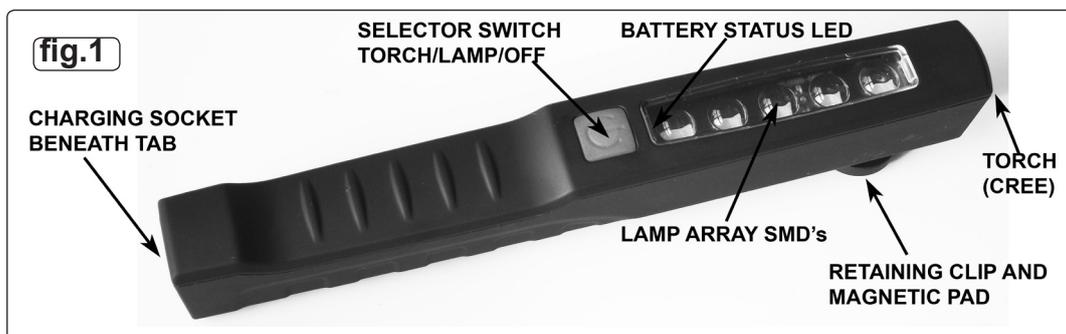

Small and compact, ideal for keeping in a pocket. Features 5 SMD LEDs for use as an inspection lamp and 1 ultra bright 3W CREE on top for use as a directional torch. Rechargeable Lithium-ion battery that suffers no memory effect and performs better for longer. Supplied with USB to pin jack lead and mains charger.

## 3. SPECIFICATION

Model No:..... **LED035.V2**  
 Battery:..... 3.7V 2.0Ah Li-ion  
 LED Quantity:..... 5 + 1  
 Lumen Output:..... 150lm (side lamp)  
 Lumen Output:..... 110lm (end torch)  
 Charging Time:..... 4hrs  
 Operating Time:..... 4hrs  
 Length:..... 190mm

## 4. CONTENTS

## 5. OPERATION

### 5.1. OPERATION

- ❑ **WARNING!** Ensure that you read, and fully understand the safety instructions before use.
- 5.1.1. Charge the battery fully before use. Whilst charging, a red LED shows in the SMD display; a green LED shows when charged. **IMPORTANT:** Ensure the light (lamp or torch function) is turned 'Off' whilst charging. Failure to do so will damage the charger plug.
- 3.1.2. The penlight can be charged from the supplied mains adaptor charger or from a computer (5VDC) via the supplied USB cable and 3.5mm jack plug. The charging jack plug is connected into the charging port in the opposite end to the lamp array. Lift the tab to reveal the input socket.
- 5.1.3. A full charge takes approximately 4 hours, allowing up to 4 hours of use.
- 5.1.4. As this light is fitted with a lithium-ion battery, it can be charged at any time; there is no 'memory' effect with this type of battery.
- 5.1.5. The first press of the switch (fig.1) illuminates the CREE LED in the end (torch), the second press illuminates the SMD's arranged on the switch side (lamp) of the unit and extinguishes the torch. The third switch turns off the SMD's; all lights are now extinguished.
- ❑ **WARNING:** Ensure that the penlight (lamp or torch function) is pointing away from you before operating the switch. As previously mentioned in General Safety; **DO NOT** shine directly into your, other person's or animal's eyes..

Environmental Protection

Recycle unwanted materials instead of disposing of them as waste. All tools, accessories and packaging should be sorted, taken to a recycling centre and disposed of in a manner which is compatible with the environment. When the product becomes completely unserviceable and requires disposal, dispose of the product and the fluids according to local regulations.

WEEE Regulations

Dispose of this product at the end of its working life in compliance with the EU Directive on Waste Electrical and Electronic Equipment (WEEE). When the product is no longer required, it must be disposed of in an environmentally protective way. Contact your local solid waste authority for recycling information.

Battery Removal

**Under the Waste Batteries and Accumulators Regulations 2009, Jack Sealey Ltd are required to inform potential purchasers of products containing batteries (as defined within these regulations), that they are registered with Valpak's registered compliance scheme. Jack Sealey Ltd's Batteries Producer Registration Number (BPRN) is BPRN00705.**

**NOTE:** It is our policy to continually improve products and as such we reserve the right to alter data, specifications and component parts without prior notice. **IMPORTANT:** No liability is accepted for incorrect use of this product.

**WARRANTY:** Guarantee is 12 months from purchase date, proof of which will be required for any claim.
